

As the end of the year approaches, we are reminded that under normal circumstances, there would be time to collect missing belongings. In our current situation, we have created a plan for families to return school inventory items, and for families to get student items that were left at the school, while supporting social distancing guidelines.

Items that students need to return to school may include library books, Chromebooks with chargers, band instruments, student ID badges, and any school-owned resources you borrowed before school let out in March.

Homeroom teachers will put all identifiable student materials from the classrooms into bags, to be picked up by families during the scheduled times below.

Item drop-off and pick-up will be done at stations in the school parking lot. We ask that no one gets out of their vehicle. Staff members will collect items that you are returning at two stations, and we will bring the bagged student items to you at a different station. If you still have your red, family pickup card please bring that so we can verify who is collecting the items. If you don't have your red card please bring a photo ID.

To support the flow of traffic, we ask that you come on your assigned day, but we understand that adjustments may be needed.
